PROFILE SUMMARY

I'm a Computer Science Engineering graduate passionate about building user-friendly websites and applications. With hands-on experience in Java, JavaScript and responsive design, I'm also familiar with Agile methodologies and love working in collaborative environments to deliver impactful results.

TECHNICAL SKILLS

Languages: Java, JavaScript, React, Oracle SQL, MySQL, HTML/CSS,
Developer Tools: Linux, GitHub, Agile Development, CI/CD
Technologies/Frameworks: Spring Boot, Hibernate

PROJECTS

TeamZen - Employee Management System | React, Context API, Tailwind CSS| ⭘ [GitHub]   **Dec 2024**
- Built an employee management system with React and Context API for tracking employee records.
- Implemented data persistence with localStorage, allowing employees' data to be stored and retrieved without requiring a backend, ensuring a fast and smooth user experience.

CodeStudio - Web Code Editor | React, CodeMirror, ContextAPI, MaterialUI | ⭘ [GitHub]   **Nov 2024**
- Leveraged CodeMirror for syntax highlighting and code formatting, improving readability and enhancing the user experience for developers.
- Enhanced the user experience with features like syntax highlighting, error detection.

EDUCATION

Biju Pattanaik University of Technology   **Oct 2020 – July 2024**
Bachelor of Technology in Computer Science   Bhubaneswar, Odisha

EXPERIENCE

FluenceTech   **Dec 2022 – Mar 2023**
Front-end Developer Intern   Bhubaneswar, Odisha
- Designed and developed responsive web interfaces using HTML, CSS, JavaScript, and React, ensuring seamless performance and accessibility across devices, including mobile and desktop.
- Translated Figma design mockups into interactive, feature-rich web pages, enhancing user engagement.
- Improved application responsiveness by implementing effective state management techniques and optimizing DOM manipulation for faster load times and smoother interactions.
- Worked closely with designers and back-end developers, aligning on functionality and aesthetics to deliver cohesive, user-focused solutions while maintaining consistency in design and performance.

CERTIFICATE

Legacy JavaScript Algorithms And Data Structure | ⭘ **[Link]**   **May 2023**
JavaScript, Data Structure   freeCodeCamp
- Completed a comprehensive program focused on mastering algorithms and data structures in JavaScript, enhancing problem-solving and coding efficiency.
- Developed skills in implementing and optimizing key data structures and algorithms for real-world applications.

Agile Scrum Foundation Certification | 📄 **[Link]**   **May 2023**
Agile Development   Itronix Solutions
- Completed a certification program focused on the Agile Scrum methodology, emphasizing principles of collaboration, flexibility, and continuous improvement.
- Gained practical skills in managing projects through sprints, conducting stand-up meetings, and utilizing Scrum artifacts to enhance team productivity and deliver high-quality results.
